

① 9.25-DI

A female I came to the office, along w/ Andrew Jerner, after being in court. She told me that she was not satisfied w/ her PDF & that she didn't want him to represent her anymore. I explained that she needed to go back & tell the Judge what she told me. I also told her that the city Law (2) was PDF's & she could ask the Judge for her case to be put on their docket. It was tested in court for alcohol content & blood at .23%. Andrew Jerner, a bondman, was on his cell phone the whole time. I was summoned to the Court break room. Judge Gordon asked why I told the A that the PDF, Shawn McGhee, was not a good attorney. I told her that's not what I said & I proceeded to tell her what I did say. Judge said the bondman, Andrew Jerner, heard me say what the A had claimed. This took place in front of Mr. Jimm T. Moore & Mr. M.

I thought that was the end of it until Sept 11. K. Gray called me & said that I needed to come to the Chiefs conference room for an internal investigation. I asked him what was it about, he said, "The Judge didn't talk to you about it," I said "no, she didn't." He then said he would call me back. I then got called over to the Judge's office & she told me that I was being internally investigated for this incident. I went back to my office & Yvonne Sells brought over a paper for me to sign stating I would report to the Chiefs conf room on a date & time. I told her that I was not signing it just yet. She told me that if I didn't, I would be insubordinate. So, I signed it & appeared on the said date & time.
